

## **Activity: An expert session on “Control Systems Practicals”**

**Date: 2<sup>nd</sup> November 2020**

**Online platform: Google Meet**

**Time: 12:30 pm to 1:30 pm**

Online expert session on how to perform the practicals of control systems was conducted for the students of SES polytechnic, Solapur. Prof S R Mulmane demonstrated practicals on the topics – 1) Construction of a given plant 2) PID Controller 3) Step response of first order system using SCILAB simulator. The main objective included remote learning, comfort, accessibility, while the limitations involved inefficiency and difficulty in maintaining academic integrity. Students are motivated to use online platform to do the practicals.

### **Glimpses of the session**
