Guest Lecture on Career opportunities in Embedded System Design was conducted by Mr. Balaji Shrichppa. He is working as a Embedded system Engineer in Qualcomm. He has also worked in Toshiba India Pvt.Ltd. The lecture was for final year E&TC students. He focused upon the current trends in Embedded System & also what is required to become a good Embedded Engineer. How we can enter the field of Embedded System as a fresher and also told the skills & path to be followed for becoming a good Embedded System Engineer.

He also answered the questions and cleared the doubts and queries of students. It was conducted in online mode on Google meet on 07/11/2020. Students enjoyed the session and had a very good experience sharing.

Mr. A.A. Kshirsagar
