NKOCET/ELECTRICAL/2022-23-II/ 31-A1

Date: 31 /03 /2023

To,
Site Incharge,
10 MW, ACG Solar Plant,
Malumbra, Tuljapur 413623.

Subject: Regarding permission of industrial visit to the plant.

Respected Sir,

Ours is an engineering college approved by AICTE, New Delhi and affiliated to **D. BATU University, Lonere**. We offer six-degree courses in engineering which are as follows.

- 1) Electrical Engineering
- 2) Electronics and Telecommunication Engineering
- 3) Computer Science and Engineering
- 4) Mechanical Engineering
- 5) Civil Engineering
- 6) Artificial Intelligence & Data Science

Our college is an institution committed to overall growth through a well-planned system. We are striving to provide qualified, motivated, capable and self-driven engineers to the society. To inculcate these qualities in students, we are arranging different industrial visits and training programs.

Your company is one of the well – known organization, which is sincere towards discharging social responsibilities. As a part of our curriculum, the students of **Third Year Electrical Engineering & Second Year Electrical Engineering** need to visit renewable energy power plant to complete the course need. Therefore, I kindly request you to give permission for visit of total 145 students to the solar power plant (10 MW Unit) and also provide a technical staff to guide our students regarding operation of Solar power plant.

Awaiting for your positive reply.

Attached herewith: Roll call list of students

Thanking you,
Yours faithfully,

Prof. Irfan I. Mujawar
HOD Electrical Dept.

Irfan Mujawar <irfanmujawar@orchidengg.ac.in>

Industrial visit permission to NK Orchid College of Engineering & Technolgy,Solapur for site site of 10Mw ACG Solar Plant ,Malumbra.

Dear Sir ,

We are accepting your request for industrial visit to our 10MW ACG Solar Plant Malumbra and as discussed with Amol Auti sir you must follow our company rules & responsibility during the site visit as Belows.

1.We are permitting to you on the basis of students visit in three/four batch , not two batch , due to high number of students will enter the premises , this is to take care of safe demonstration at site.

2.You must follow safety rule strictly , people should not go here and there, nobody is allowed to enter inside the substation . No body is allowed to touch any electrical as well solar panel , live equipment's.

3.No eatable items are allowed inside Solar plant premises. you must arrange the drinking water for the students.

4.ID proofs of all visiting person must be required, without ID no anyone allow in plant premises.

5.Every student will be required to wear Shoes.

Considering all the above aspects we are allowing you to visit the plant.

You can Visit to site on date 4th & 5th APR 2023.

With regards,

Atul Burungale

Dear Sir,

We, Mr. Shubham ^{Sunil S. Malvadkar} Mrs Sunita parents of Shubham S. Malvadkar bearing Roll number 36 studying in TY Electrical, Department of Electrical Engineering in N K Orchid College of Engineering & Technology, Solapur herewith voluntarily submitting the under taking.

"We, the undersigned parents/guardian, acknowledge that our son/daughter will be participating in an industrial tour organized by the institute to the 10 MW ACG Solar power plant in Malumbra-Tuljapur on 05/04/2023. We fully accept their participation in the visit."

We shall ensure that our son/daughter shall abide by the college terms and conditions for industrial tour. We, hereby declare and confirm that the college shall not be held responsible in the event of any misfortune or accidents and/or personal injuries whether fatal or otherwise involving our son/daughter.

We shall undertake full responsibility of all the consequences should any other person or body suffer such accidents and/or personal injuries and/or damage to property as a result of our son/daughter negligent act during the period of industrial tour.

We further confirm that the college shall not be held responsible for our son/daughter misconduct or wrongdoing at all times during the period of industrial tour and shall obey the instructions of the faculty members who are accompanying during the industrial tour.

Yours sincerely,

Electrical, Department of Electrical Engineering in N K Orchid College of Engineering &
Technology, Solapur herewith voluntarily submitting the under taking.

"We, the undersigned parents/guardian, acknowledge that our son/daughter will be participating in an industrial tour organized by the institute to the 10 MW ACG Solar power plant in Malumbra-Tuljapur on 05/04/2023. We fully accept their participation in the visit."

We shall ensure that our son/daughter shall abide by the college terms and conditions for industrial tour. We, hereby declare and confirm that the college shall not be held responsible in the event of any misfortune or accidents and/or personal injuries whether fatal or otherwise involving our son/daughter.

We shall undertake full responsibility of all the consequences should any other person or body suffer such accidents and/or personal injuries and/or damage to property as a result of our son/daughter negligent act during the period of industrial tour.

We further confirm that the college shall not be held responsible for our son/daughter misconduct or wrongdoing at all times during the period of industrial tour and shall obey the instructions of the faculty members who are accompanying during the industrial tour.

Yours sincerely,

TY

Q1	How would you rate the quality of the information provided during the visit?
Q2	Did the visit meet your expectations?
Q3	Whether this visit enhance your understanding of the concepts related to solar power generation and distribution?
Q4	How would you rate the overall organization and planning of the industrial visit?
Q5	What was the most interesting or useful aspect of the visit for you?
Q6	What suggestions do you have for improving future industrial visits for Electrical Engineering students?
Q7	Was the length of the visit appropriate? If not, please explain why.

Department of Electrical Engineering

Report on industrial visit at Solar Power Plant

Date: - 05th April 2023

A.Y. 2022-23 (Sem-II)

On 5th April 2023, a group of 130 second and third year Electrical Engineering students visited the 10 MW ACG Solar Power Plant located in Malumbra-Tuljapur. The aim of the visit was to gain practical knowledge about the installation, maintenance, and operation of a solar power plant.

Upon arrival, the students were greeted by the site Incharge of the plant, Mr. Atul Burangale, Mr. Santosh Rathod, and Mr. Niket Thorat. They started the tour by explaining the working of solar panels, how they generate electricity from sunlight, and how they are connected in series and parallel to form an array.

Next, they explained the role of the transformer and circuit breakers in the plant. They also demonstrated how they are operated and maintained.

The students were then taken to the inverter room, where they were shown the type of inverter used in the plant. The plant uses central inverters, which are more efficient than string inverters and require less maintenance.

The tour also included a visit to the Weather Monitoring Station (WMS), which is used to monitor the temperature, wind speed, and solar radiation levels. The students were shown how this data is used to optimize the plant's performance.

Mr. Atul Burangale and his team also discussed the practical difficulties they face during the operation of the plant, such as maintenance of the solar panels and inverters, and how they overcome them.

The tour concluded with a demonstration of the SCADA system used to monitor and control the plant's operation. The students were shown how the system tracks the energy production, transmission, and distribution in real-time.

Overall, the visit was very informative and provided the students with valuable insights into the installation, maintenance, and operation of a solar power plant.

Faculty coordinators expressed their gratitude to Mr. Atul Burangale and his team for their hospitality and for providing an excellent learning opportunity for the students.

No. of student visited - 130
